Hello Graeme ,

We regret to inform you that your relocation request (TCID **627203-3**) for the relocation drive from **Auckland Airport** to **Wellington Airport** has not been accepted by the rental operator.

Please don't be disheartened as there could be many reasons why a rental car company may decline a request, such as lack of availability, unsuitable dates or the vehicle has already been rented out to another driver. We work with multiple rental car companies, so we may not always have the exact reason.

We recommend that you try requesting a different vehicle listing, as you are very likely to be accepted. To increase your chances of being accepted, we suggest requesting up to 3 vehicles at once for the same overlapping dates. Once one of your requests is accepted, the other requests will automatically cancel. Please note that the first relocation you are accepted for is the one you are expected to take.

Don't give up, and we hope you find a suitable relocation soon.

Request again
